Call today to start increasing customer satisfaction, acquiring new customers, and most of all increasing your profits. Ph. 321-443-6134

Increase Your Revenue With Wireless!

68.7% of the U.S. Population uses the internet. More than 95% of business travelers need access to the internet

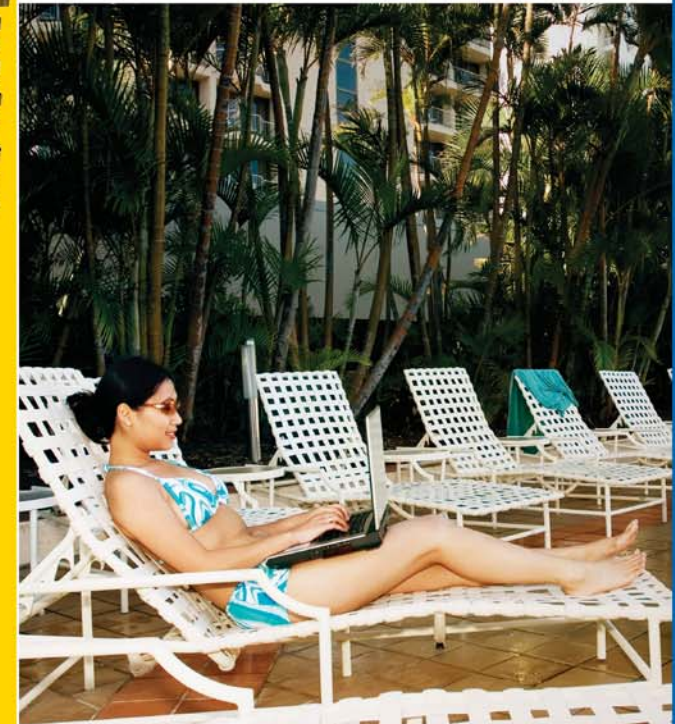

and half of vacationers would like to have access to the internet. The average price for internet use in an internet café is \$7.00 per hour.

Does your customer have to grab their laptop, leave their room, go to the lobby, or travel off property to get access? Wouldn't it be more convenient if they could connect: Anywhere in their room? Down by the pool? Out on the patio? In the courtyard?

Would they find it a bargain to have this convenience for \$10.00 per day anywhere on property?

Would you like to add \$10.00 per day of value to your room at no cost to you? If so, call us today at 321-443-6134.

We Specialize in Wireless Saturation of Your Entire Property
